## DARGENT GROUP FUND

“

*We gain only if our clients  
gain, guaranteeing principled,  
consistent investment  
performance with mutual  
interest for success.*

# DARGENT GROUP FUND

is a global alternative investment fund offering pooled investments utilizing proven diverse strategies. Our main areas of concentration are real estate, stocks, indices, currencies, cryptocurrencies, and commodities. The foundation of all our investments is consistency, risk control and research.

Dargent's aim is to provide investment consistency during market times that are good and bad. Our goal is to aid our clients knowing that their portfolio is maintained with their interest in mind.

# DARGENT HEDGE FUND

Dargent Hedge fund is an international alternative investment firm with expertise in stocks, cryptocurrencies, indices, forex, commodities. The firm was founded on the principle of creating high, consistent returns.

We completely defy the traditional model of investing. We have proven that active management and diverse strategies result in higher rates of return for our company and our investors. Our aim is sustainable returns for our investors, underpinned by our core values of integrity, reliability, trust and respect.

Our strategies do not leave our investors at risk to market fluctuations, like traditional strategies. We are in the position to maximize bull markets and/or bear markets. Our ability to maximize and lower risk for any market direction is the cornerstone of our corporate strategy.

# AUTOMATION

Dargent's automated division has increased our consistency and profits. We have built on our already proven strategies and now enhance our live trading division with our automated strategies.

Our automation begins with extensive research and thorough backtesting. With our proprietary software and strategies, Dargent continues to excel well beyond the results of traditional investments.

# DARGENT REAL ESTATE

Dargent Real Estate offers a range of solutions for institutions, financial professionals and individuals worldwide. For more than 30 years, Dargent Real Estate has helped institutions and individuals in the US gain financial security.

In pursuit of this, a focus on long-term sustainability is embedded across our business. From integrating environmental, social and governance (ESG) practices into our investment processes we create positive social impact serving communities in the U.S. We are dedicated to helping clients, employees, shareholders and communities achieve a long-term, financial well-being business model to create value through the acquisition, development, and financing of real assets, by applying our expertise in finance, engineering, and management.

The Company's expertise in asset management, finance, development, and construction gave, and still gives, Dargent Real Estate the ability to manage real estate investments from sourcing and initial investment; to disposition, or to stabilization for income. To fund our various projects and assets, Dargent Real Estate applies its financial markets expertise to structure transactions and investment vehicles to best exploit opportunities and satisfy, and exceed, investor goals.

With an emphasis on transparency, proactive communication, alignment of interests, and an experienced investment committee, Dargent Real Estate provides its investors flexible, tailor-made vehicles and structures to invest in the U.S. real estate market.
